

Hello,

We are 1 month away from your arrival at the legendary Two Rivers Lodge. We have just a few things left to go over with you before you begin your outdoor adventure. If you are driving to the lodge landing to be picked up by the shuttle boat, please reach out to Will on his cell at 1-807-464-0042 to arrange a pickup time. Between 3pm-5pm is best.

Directions to the lodge are available on the website as well.

**From Kenora travel North on Hwy#596 for 24.2 miles. Turn left onto Hwy#525 17.4 miles. You will drive over the “Whitedog Dam” & our road is just past it on the left. When you drive down our road when it comes to a “Y” please stay left & it will take you down to the beach pick up point.** We have several signs on the Hwy to help guide you.

I have listed a few questions below that will help us make your stay more comfortable. Please feel free to reach out with any special requests.

- Are there any food allergies in your party?
- Do you need handicap access?
- What type of pop would you like stocked in your cabin bar fridge?
- Any special requests for the group?
- Do you have a specific guide request?
- Do you have any specific preference on how you would like your fish prepared for shore lunch?
- Do you have any questions about the travel to the lodge?

I have also attached a link for you to obtain your conservation fishing license. **You need a 3 day nonresident conservation license & a valid outdoors card.** If you have difficulty or need help, we can also do this at the lodge upon your arrival. We still issue licenses here, doing them prior online just makes the process quicker so we can get you out fishing. We are excited to kick off our 2<sup>nd</sup> season & appreciate all your support.
